SKILLS

Computer Skills

Familiar with MS Office and scientific software.

MS-CIT

Certified in Information Technology.

Communication

Clear and concise communicator, adept at presenting findings and reports.

Laboratory Techniques

Proficient in conducting experiments, handling chemicals safely, and analyzing results.

PROJECTS

Comparative Chemical Analysis of Tea and Coffee Varieties

Chemical Titration, pH Analysis, Quantitative Measurement

- Conducted a comprehensive study on the acidic and caffeine content of 15+ commercial tea and coffee varieties.
- Performed precise quantitative measurements of caffeine concentrations and pH levels using standardized laboratory techniques.
- Analyzed the correlation between chemical composition and flavor profiles, documenting data for comparative health insights.
- Maintained rigorous accuracy in measurements and safety protocols while handling chemical reagents for data collection.

Interests

- Curious about business models and their real-time working
- Coding and developing
- Travel and exploration
- Language learning

SUMMARY

Seeking an opportunity where I can leverage my strong foundation in Chemistry while gaining valuable insights into business operations, strategy development, and the practical applications of scientific knowledge in an industry setting.

EDUCATION

Bachelor of Science in Chemistry

Shivaji University

2024

|
